Seattle, Washington 98134

Dear Mr. Ressler:

We have reviewed the revised Proposal for Monitoring, Analyses, and Testing for the Chemical Processors Pier 91 facility, submitted to our office on November 11, 1988. This revised workplan appears to address the Environmental Protection Agency's comments and concerns transmitted to you on September 10, 1988 and the subsequent discussions you have had with Bill Adams of my staff.

Therefore, this letter serves as approval to commence work and implement the tasks required by the proposal at the Pier 91 facility.

If you or your contractor have any questions, please contact Bill Adams of my staff at (206) 442-2806.

Sincerely,

for Charles W. Rice
